

Single Needle Direct Drive Machine with Automatic Thread Trimmer

BOBJET-7000A-7

Direct Drive Energy-saving Servo Motor

The energy-saving and highly efficient servomotor is installed in the direct-drive style to transmit power without loss to the sewing machine, thereby providing improved responsiveness, quicker start-up and increased needle penetration force.

The compact-sized control box and operation panel.

Both the compact-sized control box and the operation panel are integrated with the machine head. The machine is provided as standard with the operation panel.

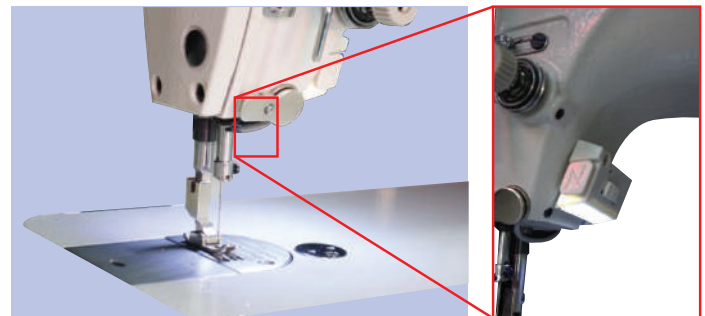

Bobbin counter function

Operator is notified that the bobbin needs to be replaced before the bobbin thread runs out.

Needle Position

Sets whether to stop the needle at the top or bottom at the end of the seam.

Functional touch-back switch with inbuilt LED lighting.

LED lights providing optimal visibility and auxiliary lighting, Alongside a functional touch back switch with that prevents Needle breakage during reverse feed stitching.

Specifications

Model name	BOBJET-7000A-7	BOBJET-7000AH-7
Application	Light to medium weight (Standard model)	Heavy weight
Max. sewing speed	5,000 sti/min	4,000 sti/min
Max. stitch length	5mm	
Presser foot	By hand: 5.5mm, By knee: 13mm	
Needle	DB × 1 (#14) #14~#18	DP × 5 (#21) #20~#23
Power consumption	350VA	
Weight of machine head	36kg (include motor, control box, cover)	
Outside dimensions of package (mm)	831 × 279 × 463
